

## Welcome to the F1 2025 Superpole Data

This data shows the F1 2025 season so far. We have seen 6 rounds so far including 2 sprint sessions before entering the European leg of the season. There is a lot of qualifying data to unpack from the first quarter of the season, where McLaren, Red Bull, and Mercedes seem to have a good qualifying package to get on Pole Position. Meanwhile, Williams have jumped forwards from 2024 whereas Ferrari have taken a step back from the previous year, bar taking Sprint Pole in the hands of Lewis Hamilton. The next pages show a deeper dive into the data and which tracks each team has excelled/struggled at.
